Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

## ● RECOMMENDATIONS

---

Ryan Swenson – Software Engineering Manager at Kaplan University – [ryan.swenson@gmail.com](mailto:ryan.swenson@gmail.com)

Mircea is a dedicated and adaptable software engineer. He is always willing to learn new technologies and methods of development and is a passionate team member. His conduct is professional and has had a positive impact on thousands of students enrolling to advance their careers.

Brian Kikkert – Product Owner & Marketing manager at Kaplan University – [brian.kikkert@gmail.com](mailto:brian.kikkert@gmail.com)

Mircea was a great person to work with, very reliable, a team player, had a flexible work schedule and is highly proficient in software development. He was an integral part in building and maintaining the back-end of our new cart and websites and I highly recommend Mircea for software engineering positions.

Michael Kling, Tiberiu Popa – IT Managers at Ascendro.de

Mircea is very friendly and open. He is a good communicator, knows his abilities and is not afraid to say if there are requests he is unsure about or things are not clear to him. Being a natural learner and always searching for new solutions and technologies Mircea was able to get into the already existing system, learn the usage of new APIs and fulfill our requirements successfully.

## ● JOB-RELATED SKILLS

---

### **Job-related skills**

---

Computer hardware assembly and disassembly, computer networking, linux, AWS, running a small business (financial, fiscal, legal, etc)
