

## Letter of Recommendation

Brian Kikkert  
Kaplan Schweser  
332 Front Street South, Suite 501  
La Crosse WI 54301  
United States of America

To whom it may concern,

The purpose of this letter is to serve as referral for Mircea-Silviu Itu in the field of software development and to confirm his participation alongside IT manager Ryan Swenson and the Kaplan Schweser Retail Team between March 2017 and February 2020.

The aforementioned Retail Team was in charge of developing the B2C infrastructure for <https://www.schweser.com/>, <https://www.kaplanittraining.com/> and <https://www.kaplanfinancial.com/> and maintenance of <https://www.jymonk.com/> and <https://www.kapre.com>

Mircea's tasks and responsibilities over the 3 years involved server-side software development in PHP (Laravel), working with and integrating complex product configurations, Kaplan APIs, building custom REST api clients, Google Analytics clients, integrating Formstack, developing custom widgets for a ReactJS SPA, implementing security best-practices, speed optimization.

Mircea was a great person to work with, very reliable, a team player, had a flexible work schedule, and is highly proficiency in software development, specifically in development with php. He was an integral part in building and maintaining the back-end of our new cart and websites, and I highly recommend Mircea for your software development needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Brian Kikkert".

Brian Kikkert
